

## Suggested Scripts when delivering the Medical Doctor Package (MDP)

Please deliver with professionalism and kindness

### **To a Pharmacist:**

"A network of medical professionals made a free resource where all the Pfizer data is available. It is a service for you, if you are interested it is all collected here. Since you are responsible for mixing medications and pharmaceutical products, this is quite important. This package describes it and how to access it. Here you go. Thank you."

### **Directly handed to your family doctor, or a physician:**

"I trust you as my family doctor, and came across this document that comes directly from Pfizer. Could you please take a look and let me know what you think? I respect your feedback since you are my family doctor. Thank you."

### **To a Medical Clinic receptionist:**

"These are Medical Doctor Packages prepared for various doctors in the clinic. A network of medical professionals made a free resource where all the Pfizer data is available. It is a service for you, physicians and medical clinics; please place a package in each mail slot for the physicians named on the front of each envelope. This package describes the resources and data, and how to access it. Here you go. Thank you."

### **To Health Care Practitioners:**

"A network of medical professionals made a free resource where all the Pfizer data is available. It is a service for you, if you are interested it is all collected here. This package describes it and how to access it. Here you go. Thank you."

### **To those with Cognitive Dissonance without logic:**

A trauma mental health therapist specializing in Neurolinguistic Programming (NLP) for the mass psychosis that has occurred, recommended these questions to help create Internal Dissonance:

*Q: "If it turned out that policies do more harm than good, would you still follow them?"*

*Q: "Would you rather be right, or find the truth?"*
